JavaScript

UI/UX Design

Testing

Django

Git

## LANGUAGES

English

Professional Working  
Proficiency

Filipino

Native or Bilingual Proficiency

## INTERESTS

Teaching/Mentoring

Computer Games

Fitness

## WORK EXPERIENCE

### Web developer (Side project)

Nenetelecom

10/2020 - Present

Antipolo, Philippines

Nenetelecom is a mobile phone retail store in the Philippines, owned by my mother, an authorized retailer for more than a decade.

Achievements/Tasks

- Develop a full-stack application using React + Django that can showcase the business years of trusted service.
- Design a highly maintainable application that can be continuously delivered to customers whenever a new feature is added.
- Transform the application to a Progressive Web App (PWA) that notifies the seller/owner when there's a new order from customer.

## PERSONAL PROJECTS

Nenetelecom (10/2020 - Present)

- Full-stack installable ecommerce app for our own mobile phone retail store.
- Technologies used: React + Django

Bracketour (10/2021 - 10/2021)

- Tournament bracket generator.
- Technologies used: JavaScript (ES6+), Jest (testing)

React - Todo App (10/2021 - 10/2021)

- A React version of [dom-practice-todo-app](#).
- Technologies used: React, Jest & Enzyme (testing), Redux (with toolkit & without toolkit)

## EDUCATION

### Information and Communication Technology (ICT)

AMA Computer College East Rizal

07/2018 - 04/2020

Antipolo, Philippines
